

	ML EXPERIMENT LIST (2025-26)	
EXPT. NO	Title of Experiment	LO
1	Data Preprocessing	LO1
2	Implement Gradient Descent Algorithm to minimize given objective function.	LO1
3	Implement Simple Linear Regression using analytical and machine learning method without using sklearn.	LO1
4	Implement Logistic Regression using machine learning method without using sklearn.	LO1
5	Implement Decision tree classification algorithm.	LO1
6	Implement Support Vector Machines for classification.	LO2
7	Implement Ensemble methods to combine different models.	LO1
8	Implement Principal Component Analysis technique.	LO3
9	Case study/ Mini project	ALL
	ASSIGNMENT LIST	
1	Written Assignment on fundamentals of Machine Learning	ALL
2	Written Assignment on Ensemble methods.	LO2
3	Decision Tree	
4	Logistic Regression	
5	SVM
